Mr. Lester Snow
CALFED Bay-Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

Dear Mr. Snow:

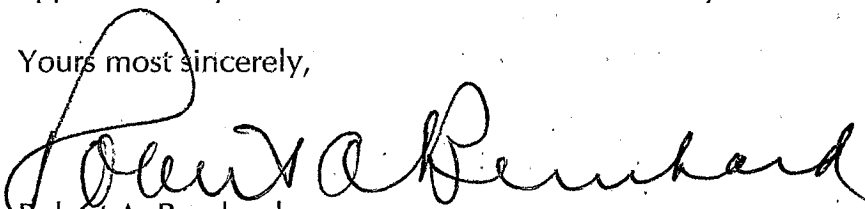

I am deeply concerned about the proposed construction of new dams and canals and enlargement of existing dams and canals in the Central Valley and in the Delta. I am particularly concerned about the Peripheral Canal and the enlargement of Shasta Dam.

I strongly support the ideas for restoration of stream meander, flood plain management and stream flows, of which should benefit species which are threatened and endangered in the area.

I would strongly urge you to expand all reclamation programs and to do all that can be done to encourage conservation of existing water supplies.

I am against any increase in logging in the upper watershed forests and I am strongly opposed to any construction of more dams and any more diversion of water.

Yours most sincerely,

Robert A. Bernhard
